

Krishiraj Santchurn

Civil & Structural Engineering · BIM + Computational · Commercially Aware

santchurnkrishiraj@gmail.com · 0432 399 251 · linkedin.com/in/krishiraj-santchurn · Melbourne VIC

Civil Engineering (Honours) student who works where three worlds meet that rarely sit in one engineer: **structural & infrastructure engineering**, real **digital delivery** (BIM, Civil 3D, digital twins and coding), and a formal **commercial grounding** in accounting and project management. I take work from concept and structural design through documentation, site delivery and the digital tools that make it faster and clearer – backed by hands-on experience across structural consulting, government infrastructure and large-scale (~1000-unit) construction sites.

EDUCATION

Monash University

B.Eng Civil (Honours) · Minor Environmental Eng.

Jul 2023 – Jul 2027 · Melbourne

Sir John Monash Fee Scholarship · Eng.
International High Achievers Scholarship

ACCA (United Kingdom)

Advanced Diploma in Accounting & Business

Jan 2022 – Dec 2024

PMI (United States)

CAPM® – Certified Associate in Project Mgmt

Jan 2026 – Feb 2026

SKILLS

Engineering

Revit / BIM, Civil 3D, AutoCAD, SpaceGass, ArcGIS Pro; RC & steel design, RC calculations

Digital

TypeScript, React / Next.js, AWS (Lambda, DynamoDB), Dynamo, digital-twin data

Commercial & PM

Accounting (ACCA), project management (CAPM), Excel modelling, technical documentation

Fabrication & site

3D printing, laser cutting, prototyping; CPCWHS1001 White Card

LEADERSHIP

Monash Mauritian Society

FOUNDER & PRESIDENT · 2024–

AUD \$4,000 sponsorship; grew into a Melbourne-wide community across six universities.

AWS Student Builder Group

FOUNDING LEADER · 2026–

Selected to establish Monash's AWS cloud-computing student community.

ACES – Civil Eng. Students

COMMITTEE · 2024–

Student events & academic and industry initiatives across the civil cohort.

Monash University

CAMPUS & STUDENT AMBASSADOR · 2024–

Faculty of Engineering outreach and recruitment.

EXPERIENCE

Lux Consult – Structural Intern

MAURITIUS · DEC 2025 – JAN 2026

- Designed residential structures (villas, extensions, renovations); prepared AutoCAD drawings and reinforced-concrete calculations in Excel.
- Produced 10+ technical drawings across 5+ structural design projects, lifting documentation quality.

Ministry of National Infrastructure – Engineering Intern

MAURITIUS · DEC 2024 – JAN 2025

- Supported site engineers on a ~1000-unit housing development: construction monitoring, site coordination, safety observations and progress tracking.

Tayelamay Group – Site Engineer Intern

MAURITIUS · NOV 2023 – FEB 2024

- Site coordination, safety checks and activities on a large housing development; hands-on exposure to modular building methods.

Monash Sustainable Buildings – Prototyping Sub-Lead

MONASH · JUL 2023 – MAR 2026

- Led prototyping for student sustainable-building projects (CAD, 3D printing, laser cutting); trained and onboarded new members.

SELECTED PROJECTS

Aboriginal Gathering Place – Structural Engineer (Capstone)

2026 · REVIT + SPACEGASS

- Leading the structural discipline: compared reinforced-concrete and steel schemes for a column-free hall, then detailed the preferred scheme.

BIM Modelling in Revit – Self-directed

2026 · REVIT / BIM

- Modelled a multi-unit apartment building end to end – architecture plus a steel structural frame and column grid.

Digital Twin Fire-Alarm Verification – Research

2026 · DIGITAL TWIN

- Using digital-twin data to reduce false fire alarms in institutional buildings.

Rafflesia Vision Valley – Arterial Link Roads · FairWork – Full-stack platform

2025 · CIVIL 3D · NEXT.JS / AWS

- Designed two Austroads-compliant link roads in Civil 3D; separately built a full-stack app (Next.js, AWS Lambda, DynamoDB) for fairer group work.
