Testimonial

To Whom It May Concern,

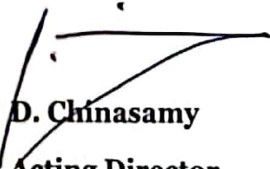

I am pleased to provide this testimonial for Mr **SANTCHURN Krishiraj** bearing who has undergone a two month internship at the Ministry of National Infrastructure, Civil Engineering Section under the student placement scheme, from 03 December 2024 to 31 January 2025. During his tenure with us, Mr **SANTCHURN Krishiraj** had the opportunity to familiarize himself with the organisation's structure and interact with experienced Civil Engineers.

Mr **SANTCHURN Krishiraj** took full advantage of this opportunity and successfully built a network of Engineers. He gained valuable knowledge in various aspects of civil engineering, particularly in building construction. He learned the fundamental principles of engineering, the analysis and design of structural elements, accompanied Senior Engineers on multiple site visits and was introduced to basic concrete laboratory testing.

Mr **SANTCHURN Krishiraj** is a polite and respectful individual who consistently steps out of his comfort zone and remains open and curious in his learning.

Based on his performance during his internship, I am confident that Mr **SANTCHURN Krishiraj** has the potential to excel in his future endeavours.

Sincerely,

D. Chinasamy

Acting Director,

Civil Engineering Section
