SUMMARY

Civil Engineering (Honours) student at Monash University with practical experience across infrastructure, site-based engineering, and multidisciplinary project environments. Strong interest in transport, infrastructure, and the built environment, supported by experience in site inspections, engineering coordination, and technical problem-solving through internships in structural consulting, government infrastructure, and construction settings. Strong communication and stakeholder engagement skills developed through student leadership and ambassador roles.

EDUCATION

Monash University, Australia – Bachelor of Civil Engineering (Honours)
Jul 2023 – Jul 2027
Minor: Environmental Engineering
Sir John Monash Fee Scholarship, Engineering International High Achievers Scholarship

Project Management Institute USA – Certified associate in project management (CAPM®)
Jan 2026 – Feb 2026

Association of Chartered Certified Accountants UK – Advanced Diploma in Accounting and Business
Jan 2022 – Dec 2024

buildingSMART – Professional Certification: Entry (openBIM / IFC)
2026

Deakin University – SEED-AI (Skills for Education, Employment and Digital AI)
Oct 2026

EXPERIENCE

Lux Consult Mauritius – Structural Intern *Dec 2025 – Jan 2026*

- Designed residential structural projects, including villas, extensions, and renovations, prepared AutoCAD drawings and reinforced concrete calculations in Excel.
- Produced 10+ technical drawings and supported 5+ structural design projects, improving documentation quality.

Monash Sustainable Buildings, engineering team – Prototyping Division Sub-Lead *Jul 2023 – Mar 2026*

- Led prototyping initiatives for student-led sustainable building projects using CAD, 3D printing, and laser cutting.
- Trained and onboarded new team members while supporting prototype design and fabrication.

Ministry of National Infrastructure (Mauritius) – Engineering Intern *Dec 2024 – Jan 2025*

- Assisted site engineers in monitoring construction activities, site coordination, safety observations, and progress tracking on a large-scale (~1000-unit) housing development.
- Collaborated with engineers and contractors to support site coordination and communication across projects

Tayelamay Group Mauritius – Site Engineer Intern *Nov 2023 – Feb 2024*

- Supported site engineers on a large-scale (~1000-unit) housing development, gaining exposure to construction coordination and modular building methods.
- Assisted with site activities, safety checks, and project coordination in active construction environments.

ACES – Monash Association of Civil Engineering Students – Committee Member *Apr 2024 – Oct 2026*

- Supported civil engineering student engagement through academic and industry initiatives, including Industry Night and engineering-focused events.

Monash University – Campus & Student Ambassador *May 2024 – Present*

- Represented the Faculty of Engineering and the university across recruitment, outreach, and engagement

Monash Mauritian Society – Founding Member *Nov 2024 – Present*

- Founded and established a cultural student society, securing AUD 2,000 in sponsorship and coordinating large-scale community events through stakeholder engagement and end-to-end planning.

Technical Skills: AutoCAD, Revit, Civil 3D, ArcGIS Pro, Space Gass, Excel, Prototyping, Technical documentation, Microsoft Office Suite
